Experience

Software Engineer Intern

Jan 2026 – June 2026

EPAM Systems

Hyderabad

- Developed a Travel Agency Management System using Java, Spring Boot, React.js, MongoDB
- Implemented JWT-based Authentication and Authorization with role-based access control
- Solely developed a Report Analytics Microservice for travel agent performance and sales analytics
- Integrated RabbitMQ for asynchronous communication with other microservices and automated report delivery via Amazon SES
- Built an AI-powered analytics module to generate insights from sales and performance reports

Software Development Intern

July 2025 – October 2025

Confidence Connector, Innovative Engineering Solutions

Aligarh

- Developed real-time health monitoring system collecting ECG, heart rate, SpO₂, and body temperature data from IoT devices
- Built AI chatbot (Gemini API) that analyzes vitals and answers health queries based on patient data
- Implemented secure doctor-patient chat with AI monitoring that generates diagnosis reports after consultations
- Created analytics dashboard for tracking historical vitals and generating health trend reports

Software Development Intern

Oct 2024 – Jan 2025

Apna Darzi

Remote

- Developed a responsive web app and wrapped it in React Native with real-time admin and agent controls
- Integrated Google Analytics and push notifications; improved engagement by 25% and retention by 20%
- Created a multi-step service flow allowing agents to update each stage, synced with user notifications
- Contributed to deployment by publishing the app to Google Play Store and hosting the web platform on Hostinger

Software Development Intern

June 2024 – Sept 2024

The Amulate Program

Remote, DE

- Selected among top 2 students to design an automated Android testing platform, reducing manual testing by 70%
- Built cross-device ADB automation with AdbKit, improving test cycle speed and reliability

Education

Zakir Husain College of Engineering and Technology, AMU

Sep 2022 – May 2026

B.Tech in Computer Engineering

Aligarh, Uttar Pradesh

Delhi Public School, Roorkee

May 2019 – May 2021

Intermediate (CBSE)

Roorkee, Uttarakhand

Projects

TubeGate – Automated YouTube Publishing Platform Live | GitHub

- Automated the process of publishing YouTube videos shared by editors to users' linked channels
- Auto-filled titles, description using templates, Razorpay integration, and Cloudinary storage
- Reduced publishing time by 60%, improving creator productivity

Tech Stack: Next.js, PostgreSQL, Prisma ORM, YouTube API, Cloudinary, TailwindCSS

FeedbackFlow – AI-Powered Employee Feedback Platform Live | GitHub

- Developed a full-stack feedback management platform using Spring Boot, React, and MongoDB with role-based dashboards
- Implemented JWT authentication and RBAC using Spring Security for secure feedback workflows
- Integrated Google Gemini API to analyze employee feedback and generate AI-powered insights
- Built REST APIs and containerized the application using Docker & Docker Compose

Tech Stack: Java 21, Spring Boot, Spring Security, React, MongoDB, JWT, Gemini API, Docker

Samar-Kit – MERN Boilerplate CLI & NPM Package NPM

- Published an npm package and CLI tool to scaffold production-ready MERN applications
- Supports `npmx samar-kit` to generate backend APIs, React frontend, auth, and folder structure
- Accelerates full-stack development with pre-configured MongoDB and Tailwind setup

Tech Stack: Node.js, React.js, Express.js, MongoDB, TailwindCSS

Technical Skills

Languages: C/C++, Java, TypeScript, JavaScript, HTML/CSS

Web/App: Java, Spring Boot, Spring Data JPA, React.js, Next.js, Node.js, Express.js, EJS, MongoDB, PostgreSQL, Prisma ORM, Redis, Tailwind CSS, Progressive Web App, JUnit 5, Mockito

Developer Tools: Git, GitHub, Docker, CI/CD, AWS, Cloudinary, Postman, ADB
